

# Cafe & Wifi

## GET Get All Cafes

localhost:5000/all

This route returns a json with the data from all cafes in the database.

## GET Get Random Cafe

localhost:5000/random

Returns a random cafe from the database.

## GET Search Cafes By Location

localhost:5000/search?location=Gurugram

The /search route will search the cafe database for a cafe that matches the location queried. Use the loc parameter to pass a location name.

### ***Request Params***

Location Gurugram

## POST Post New Cafe

localhost:5000/add?api-key=TopSecretAPIKey

Adds a new cafe entry to the database. Requires authentication with api-key parameter.

### ***Request Params***

api-key TopSecretAPIKey

### ***Bodyurlencoded***
